Air embolism: Bodenstab tourniquet. Letter, 528
Air infusion
Forced subarachnoid air in transsphenoidal surgery. Letters, 314
Alpha-fetoprotein
Successful treatment of a pineal endodermal sinus tumor. Case report, 832
American Association of Neurological Surgeons
Abstracts for AANS Annual Meeting, 341A
Scientific program: Annual Meeting of the American Association of Neurological Surgeons, April 20–25, 1991, 320
American Brain Association
American Brain Association. Letter, 529
Anastomosis, nerve
Coaptation of the anterior rami of C-3 and C-4 to the upper trunk of the brachial plexus for cervical nerve root avulsion, 171
Hearing loss from petrous-to-supraclinoid carotid bypass. Letters, 688
Intracranial carotid-to-carotid bypass. Letters, 856
Anastomosis, vascular
Vein bypass grafts and basofrontal mass lesions. Letters, 156
Aneurysm
Cerebral blood flow patterns at major vessel bifurcations and aneurysms in rats, 258
Endovascular occlusion of vertebral arteries in the treatment of unclippable vertebrobasilar aneurysms, 393
Fusiform dilatations of the carotid artery following radical surgery of childhood craniopharyngiomas, 695
Long-term effects of nimodipine on cerebral infarcts and outcome after aneurysmal subarachnoid hemorrhage and surgery, 8
Long-term outcome following anterior cerebral artery ligation for ruptured anterior communicating artery aneurysms, 51
A new clip applier. Technical note, 304
Occlusion of an "accessory" distal anterior cerebral artery during treatment of anterior communicating artery aneurysms. Report of two cases, 133
Superior hypophyseal artery aneurysm. Report of two cases, 501
Venous infarction following the interhemispheric approach in patients with acute subarachnoid hemorrhage, 715
Aneurysm, dissecting
Hemifacial spasm caused by a spontaneous dissecting aneurysm of the vertebral artery. Case report, 650
Subarachnoid hemorrhage from a dissecting aneurysm of the middle cerebral artery. Case report, 504
Aneurysm, giant
Giant carotid-ophthalmic artery aneurysms: direct clipping utilizing the "trapping-evacuation" technique, 567
Aneurysms, multiple
Abnormal origin of bilateral ophthalmic arteries. Case report, 287
Angioendotheliomatosis
Immunocytochemical evidence of lymphocytic derivation of neoplastic cells in malignant angioendotheliomatosis, 757
Angioplasty
Fatal rupture of the intracranial carotid artery during transluminal angioplasty for vasospasm induced by subarachnoid hemorrhage. Case report, 985
Anterior cerebral artery
Occlusion of an "accessory" distal anterior cerebral artery during treatment of anterior communicating artery aneurysms.

Report of two cases, 133
Anterior communicating artery
Long-term outcome following anterior cerebral artery ligation for ruptured anterior communicating artery aneurysms, 51
Occlusion of an "accessory" distal anterior cerebral artery during treatment of anterior communicating artery aneurysms. Report of two cases, 133
Antibiotic therapy
Antibiotic effect on incidence of postcraniotomy seizures. Letters, 311
Aqueductal stenosis
Benign intrinsic tectal "tumors" in children, 867
Arteriovenous fistula
A variant of arteriovenous fistulas within the wall of dural sinuses. Results of combined surgical and endovascular therapy, 199
Arteriovenous malformation
Angiographic occult vascular malformations. Letters, 527
Anterolateral transthoracic transvertebral resection of an intramedullary spinal arteriovenous malformation. Case report, 1004
Familial occurrence of arteriovenous malformation of the brain, 585
Management of hemorrhagic complications from preoperative embolization of arteriovenous malformations, 205
Spinal cord AVM and risks of lumbar puncture. Letters, 855
Tissue plasminogen activator thrombolysis of a middle cerebral artery embolus in a patient with an arteriovenous malformation. Case report, 808
A variant of arteriovenous fistulas within the wall of dural sinuses. Results of combined surgical and endovascular therapy, 199
A vascular malformation mimicking an intracanalicular acoustic neurilemoma. Case report, 516
Artery, *see* specific arteries
Arthrodesis
The interspinous method of posterior atlantoaxial arthrodesis, 190
Artificial membrane
Osteopromotion for cranioplasty. An experimental study in rats using a membrane technique, 487
Astrocytoma
Characterization of astrocytomas, meningiomas, and pituitary adenomas by phosphorus magnetic resonance spectroscopy, 447
Correlates of survival and the Daumas-Duport grading system for astrocytomas, 27
Estramustine binding protein in human brain-tumor tissue, 962
Gemistocytic astrocytomas: a reappraisal, 399
Role of surgery for high-grade astrocytomas. Letters, 1027
Atlantoaxial stabilization
Atlantoaxial stabilization in rheumatoid arthritis, 1
The interspinous method of posterior atlantoaxial arthrodesis, 190

Basilar artery
Basilar impression in osteogenesis imperfecta tarda. Case report, 136
Longitudinal time course of reversible and irreversible components of chronic cerebrovasospasm of the rabbit basilar artery, 951
Basofrontal lesions
Vein bypass grafts and basofrontal mass lesions. Letters, 156
Blood-brain barrier
Delivery of ultraviolet-inactivated ^{35}S-herpesvirus across an osmotically modified blood-brain barrier, 475
Microinfarction: osmotic BBB opening or microcrystals in infusate? Letters, 685
A new model of systemic drug rescue based on permeability characteristics of the blood-brain barrier in intracerebral abscess-bearing rats, 467
Tumor-associated neurological dysfunction prevented by lazaroids in rats, 112
Blood substitute
Ultraprofound hypothermia with complete blood substitution in a canine model, 781

Brachial plexus
Coaptation of the anterior rami of C-3 and C-4 to the upper trunk of the brachial plexus for cervical nerve root avulsion, 171
Brain injury, *see also* Head injury
Effects of tromethamine and hyperventilation on brain injury in the cat, 87
Relationship between body and brain temperature in traumat-

Index

ically brain-injured rodents, 492
Brain ischemia
Correlation of the extracellular glutamate concentration with extent of blood flow reduction after subdural hematoma in the rat, 794
Brain neoplasm, *see also* specific neoplasms
Biological significance of tissue plasminogen activator content in brain tumors, 480
Characterization of astrocytomas, meningiomas, and pituitary adenomas by phosphorus magnetic resonance spectroscopy, 447
Gangliosides: the relevance of current research to neurosurgery, 606
Gemistocytic astrocytomas: a reappraisal, 399
Growth hormone deficiency following radiation therapy of primary brain tumors in children, 743
Interstitial chemotherapy with drug polymer implants for the treatment of recurrent gliomas, 441
Intratumoral oxygen pressure in malignant brain tumor, 55
Intravascular streaming during carotid artery infusions. Demonstration in humans and reduction using diastole-phased pulsatile administration, 763
Lack of neural control and reactivity to vasoactive agents in malignant glioma arteries, 633
Nucleolar organizer regions in various human brain tumors, 979
Brain retraction
A micromanipulator for precise control of a brain retractor. Technical note, 1009
Brain stem
Epidermoid cysts of the brain stem. Report of three cases, 123
Brain-stem auditory evoked responses, *see* Evoked potentials
BW755C
Evidence against leukotrienes as mediators of brain edema, 773

Calcium
Cytosolic calcium changes in cultured rat aortic smooth-muscle cells induced by oxyhemoglobin, 620
Callosotomy
Seizure outcome from anterior and complete corpus callosotomy, 573
Carcinoembryonic antigen
Pseudopsammomatous meningioma with elevated serum carcinoembryonic antigen: a true secretory meningioma. Case report, 129
Carcinoma
Estramustine binding protein in human brain-tumor tissue, 962
Carotid-cavernous fistula
Spontaneous carotid-cavernous fistulae in Ehlers-Danlos syndrome Type IV. Case report, 991
Cavernous sinus
The Dolenc technique for cavernous sinus exploration (cadaveric prosection). Technical note, 837
Central nervous system tumor
Enhanced *in vitro* uptake and retention of ^{3}H-tetraphenylphosphonium by nervous system tumor cells, 116
Radioimmunoassay of insulin-like growth factors in cyst fluid of central nervous system tumors, 972
The risks of metastases from shunting in children with primary central nervous system tumors, 872
Cerebellopontine angle
An epithelial cyst in the cerebellopontine angle. Case report, 278
Cerebral blood flow
Acute regional cerebral blood flow changes caused by severe head injuries, 407
Cerebral blood flow patterns at major vessel bifurcations and aneurysms in rats, 258
The effects of etomidate on cerebral metabolism and blood flow in a canine model for hypoperfusion, 263
Cerebral metabolism
The effect of glucose administration on carbohydrate metabolism after head injury, 43
The effects of etomidate on cerebral metabolism and blood flow in a canine model for hypoperfusion, 263
Effects of tromethamine and hyperventilation on brain injury in the cat, 87
Cerebral palsy
Cerebral palsy and rhizotomy. A 3-year follow-up evaluation with gait analysis, 178
Functional outcomes following selective posterior rhizotomy in children with cerebral palsy, 380
Cerebrospinal fluid dynamics
Cisterna magna microdialysis of ^{22}Na to evaluate ion transport and cerebrospinal fluid dynamics, 965
Effect of intrathecal fibrinolysis on cerebrospinal fluid absorption after experimental subarachnoid hemorrhage, 789
Intracranial pressure and cerebrospinal fluid outflow conductance in healthy subjects, 597
Cervical spine
Atlantoaxial stabilization in rheumatoid arthritis, 1
Central corpectomy for cervical spondylotic myelopathy: a consecutive series with long-term follow-up evaluation, 163
Increased MR signal intensity due to cervical myelopathy. Analysis of 29 surgical cases, 887
The interspinous method of posterior atlantoaxial arthrodesis, 190
Chemotherapy
Improved survival with the use of adjuvant chemotherapy in the treatment of medulloblastoma, 433
Interstitial chemotherapy with drug polymer implants for the treatment of recurrent gliomas, 441
Intravascular streaming during carotid artery infusions. Demonstration in humans and reduction using diastole-phased pulsatile administration, 763
Management of chiasmal and hypothalamic gliomas of infancy and childhood with chemotherapy, 701
Nitrogen mustard, vincristine, procarbazine, and prednisone as adjuvant chemotherapy in the treatment of medulloblastoma: a Pediatric Oncology Group study, 905
Chiari malformation
Percutaneous thecoperitoneal shunt for syringomyelia. Report of three cases, 827
Spontaneous decompression of syringomyelia: magnetic resonance imaging findings. Case report, 283
Children
Benign intrinsic tectal "tumors" in children, 867
Conservative surgery and radiation for childhood craniopharyngiomas. Letters, 1025
Functional outcomes following selective posterior rhizotomy in children with cerebral palsy, 380
Fusiform dilatations of the carotid artery following radical surgery of childhood craniopharyngiomas, 695
Growth hormone deficiency following radiation therapy of primary brain tumors in children, 743
Improved survival with the use of adjuvant chemotherapy in the treatment of medulloblastoma, 433
Intracranial arachnoid cysts in children. A comparison of the effects of fenestration and shunting, 230
Intracranial germ-cell tumors in children, 545
Management of chiasmal and hypothalamic gliomas of infancy and childhood with chemotherapy, 701
Nitrogen mustard, vincristine, procarbazine, and prednisone as adjuvant chemotherapy in the treatment of medulloblastoma: a Pediatric Oncology Group study, 905
Orbital rim and malar advancement for unilateral coronal synostosis in the older pediatric age group, 219
The risks of metastases from shunting in children with primary central nervous system tumors, 872

Chordoma
Intradural chordoma of the tentorium cerebelli. Case report, 508
Choristoma
Tethered cord syndrome from a choristoma of müllerian origin. Case report, 497
Cisterna magna
Cisterna magna microdialysis of ^{22}Na to evaluate ion transport and cerebrospinal fluid dynamics, 965
Clamp
Use of MR imaging-compatible Halifax interlaminar clamps for posterior cervical fusion, 185
Clip
Movement of hemostatic clips from the ventricles through the aqueduct to the lumbar spinal canal. Case report, 143
A new clip applier. Technical note, 304
Occlusion of an "accessory" distal anterior cerebral artery during treatment of anterior communicating artery aneurysms. Report of two cases, 133
Computerized tomography
CT enhancement following lobectomy. Letters, 689
Coronal synostosis
Orbital rim and malar advancement for unilateral coronal synostosis in the older pediatric age group, 219
Corpus callosum
Seizure outcome from anterior and complete corpus callosotomy, 573
Corticotropin-releasing factor
Altered gastric emptying in the head-injured patient: relationship to feeding intolerance, 738
Cranial nerve
Intraoperative protection of cranial nerves and perforating arteries by silicone rubber sheets. Technical note, 677
Craniopharyngioma
Conservative surgery and radiation for childhood craniopharyngiomas. Letters, 1025
Fusiform dilatations of the carotid artery following radical surgery of childhood craniopharyngiomas, 695
Postoperative ectopic craniopharyngioma. Case report, 653
Cranioplasty
Orbital rim and malar advancement for unilateral coronal synostosis in the older pediatric age group, 219
Osteopromotion for cranioplasty. An experimental study in rats using a membrane technique, 487
Craniotomy
Pterional craniotomy. Letters, 526
Cushing's syndrome
Idiopathic and glucocorticoid-induced spinal epidural lipomatosis, 38
Cyst, *see* various types
Cyst, arachnoid
Intracranial arachnoid cysts in children. A comparison of the effects of fenestration and shunting, 230
Cyst, epidermoid
Epidermoid cysts of the brain stem. Report of three cases, 123
Cyst, epithelial
An epithelial cyst in the cerebellopontine angle. Case report, 278
Cyst, neurenteric
An epithelial cyst in the cerebellopontine angle. Case report, 278
Cyst, Rathke's cleft
Clinical, radiographic, and pathological features of symptomatic Rathke's cleft cysts, 535

Dexamethasone
Interstitial delivery of dexamethasone in the brain for the reduction of peritumoral edema, 956
Diagnostic imaging, *see* specific studies
Dialysis
Cisterna magna microdialysis of ^{22}Na to evaluate ion transport and cerebrospinal fluid dynamics, 965
Dopamine
Dopamine distribution and behavioral alterations resulting from dopamine infusion into the brain of the lesioned rat, 105
Fetal nondopaminergic neural implants in parkinsonian primates. Histochemical and behavioral studies, 97
Dorsal root entry zone lesion
Somatosensory function following dorsal root entry zone lesions in patients with neurogenic pain or spasticity, 916
Drug delivery
Dopamine distribution and behavioral alterations resulting from dopamine infusion into the brain of the lesioned rat, 105
Interstitial chemotherapy with drug polymer implants for the treatment of recurrent gliomas, 441
Interstitial delivery of dexamethasone in the brain for the reduction of peritumoral edema, 956
Intravascular streaming during carotid artery infusions. Demonstration in humans and reduction using diastole-phased pulsatile administration, 763
Drug rescue
A new model of systemic drug rescue based on permeability characteristics of the blood-brain barrier in intracerebral abscess-bearing rats, 467
Drug resistance
Expression of P-glycoprotein in human glioma cell lines and surgical glioma specimens, 460
Dural fistula
A variant of arteriovenous fistulas within the wall of dural sinuses. Results of combined surgical and endovascular therapy, 199

Echocardiography
Transesophageal echocardiography: a simple method for monitoring the patency of ventriculoatrial shunts. Technical note, 1018
Edema
Evidence against leukotrienes as mediators of brain edema, 773
Interstitial delivery of dexamethasone in the brain for the reduction of peritumoral edema, 956
Ehlers-Danlos syndrome
Spontaneous carotid-cavernous fistulae in Ehlers-Danlos syndrome Type IV. Case report, 991
Electrical stimulation
Isoflurane-induced attenuation of motor evoked potentials caused by electrical motor cortex stimulation during surgery, 897
Electrocorticography
The morbidity of long-term seizure monitoring using subdural strip electrodes, 734
Electrode
Histological assessment of nerve lesions caused by epineurial electrode application in rat sciatic nerve, 636
The morbidity of long-term seizure monitoring using subdural strip electrodes, 734
Electromyography
Intraoperative monitoring of the facial nerve during decompressive surgery for hemifacial spasm, 254
Embolism
Air embolism: Bodenstab tourniquet. Letters, 528
Tissue plasminogen activator thrombolysis of a middle cerebral artery embolus in a patient with an arteriovenous malformation. Case report, 808
Embolization
Management of hemorrhagic complications from preoperative

Index

embolization of arteriovenous malformations, 205
Encephalocele
Developmental anterobasal temporal encephalocele and temporal lobe epilepsy, 933
Endoscopy
Endoscopic ventricular fenestration using a "saline torch," 224
Endovascular therapy
Endovascular occlusion of vertebral arteries in the treatment of unclippable vertebrobasilar aneurysms, 393
Management of hemorrhagic complications from preoperative embolization of arteriovenous malformations, 205
Entrapment neuropathy
Suprascapular nerve entrapment. A series of 27 cases, 893
Ependymoma
Postoperative radiotherapy in the management of spinal cord ependymomas, 720
Epilepsy, *see* Seizure
Estramustine
Estramustine binding protein in human brain-tumor tissue, 962
Etomidate
The effects of etomidate on cerebral metabolism and blood flow in a canine model for hypoperfusion, 263
Evoked potentials
Brain-stem auditory evoked responses in 56 patients with acoustic neurinoma, 749
Evaluation of brain-stem dysfunction following severe fluid-percussion head injury to the cat, 270
Isoflurane-induced attenuation of motor evoked potentials caused by electrical motor cortex stimulation during surgery, 897
Somatosensory function following dorsal root entry zone lesions in patients with neurogenic pain or spasticity, 916

Facetectomy
Unilateral facetectomy approach for lateral lumbar disc herniation, 754
Facial nerve
Familial hemifacial spasm associated with arterial compression of the facial nerve. Case report, 290
Radical intracapsular removal of acoustic neurinomas. Long-term follow-up review of 11 patients, 422
Familial lesion
Familial occurrence of arteriovenous malformation of the brain, 585
Long-time survival of a patient with glioblastoma and Turcot's syndrome. Case report, 813
Fastigial pressor response
The fastigial pressor response. Case report, 147
Femoral nerve
Management of meralgia paresthetica, 76
Fibrin glue
A new surgical approach to subcortical lesions: balloon inflation and cortical gluing. Technical note, 1014
Fibrinolysis
Effect of intrathecal fibrinolysis on cerebrospinal fluid absorption after experimental subarachnoid hemorrhage, 789
Lysis of intraventricular hematoma with tissue plasminogen activator. Case report, 803
Fistula
Spontaneous carotid-cavernous fistulae in Ehlers-Danlos syndrome Type IV. Case report, 991
Tension pneumocephalus: treatment with controlled decompression via a closed water-seal drainage system. Case report, 139
A variant of arteriovenous fistulas within the wall of dural sinuses. Results of combined surgical and endovascular therapy, 199

Flow cytometry
A histological and flow cytometric study of dog brain endothelial cell injuries in delayed radiation necrosis, 625
Fluid-percussion injury
Evaluation of brain-stem dysfunction following severe fluid-percussion head injury to the cat, 270
Foreign body
Foreign-body "gauzomas." Letters, 529
Movement of hemostatic clips from the ventricles through the aqueduct to the lumbar spinal canal. Case report, 143
Foundation for International Education in Neurological Surgery
Foundation for International Education in Neurological Surgery, Inc. Report of Activities, 1988–1990. Letter, 309

Ganglionectomy
Dorsal root ganglionectomy for failed back surgery syndrome: a 5-year follow-up study, 236
Ganglioside
Gangliosides: the relevance of current research to neurosurgery, 606
Gastric emptying
Altered gastric emptying in the head-injured patient: relationship to feeding intolerance, 738
Gauzoma
Foreign-body "gauzomas." Letters, 529
Gemistocytic astrocytoma
Gemistocytic astrocytomas: a reappraisal, 399
Germinoma
Intracranial germ-cell tumors in children, 545
Glioblastoma
Long-time survival of a patient with glioblastoma and Turcot's syndrome. Case report, 813
Transferrin receptor on glioblastoma multiforme. Letter, 313
Glioma
Expression of P-glycoprotein in human glioma cell lines and surgical glioma specimens, 460
Glioma growth and the protein kinase-C system. Letters, 685
Lack of neural control and reactivity to vasoactive agents in malignant glioma arteries, 633
Management of chiasmal and hypothalamic gliomas of infancy and childhood with chemotherapy, 701
Role of surgery in malignant gliomas. Letters, 526
Glutamate
Correlation of the extracellular glutamate concentration with extent of blood flow reduction after subdural hematoma in the rat, 794
Ischemic neuronal damage after acute subdural hematoma in the rat: effects of pretreatment with a glutamate antagonist, 944
Glycoprotein
Expression of P-glycoprotein in human glioma cell lines and surgical glioma specimens, 460
Grading systems
Correlates of survival and the Daumas-Duport grading system for astrocytomas, 27
Growth factor
Radioimmunoassay of insulin-like growth factors in cyst fluid of central nervous system tumors, 972
Growth hormone
Growth hormone deficiency following radiation therapy of primary brain tumors in children, 743

Head injury, *see also* Brain injury
Acute regional cerebral blood flow changes caused by severe head injuries, 407

Altered gastric emptying in the head-injured patient: relationship to feeding intolerance, 738
The effect of glucose administration on carbohydrate metabolism after head injury, 43
Evaluation of brain-stem dysfunction following severe fluid-percussion head injury to the cat, 270
Hearing
Hearing loss from petrous-to-supraclinoid carotid bypass. Letters, 688
Radical intracapsular removal of acoustic neurinomas. Long-term follow-up review of 11 patients, 422
Hemangiopericytoma
Hemangiopericytoma of the sciatic nerve. Case report, 512
Hemifacial spasm
Basilar impression in osteogenesis imperfecta tarda. Case report, 136
Familial hemifacial spasm associated with arterial compression of the facial nerve. Case report, 290
Hemifacial spasm caused by a spontaneous dissecting aneurysm of the vertebral artery. Case report, 650
Intraoperative monitoring of the facial nerve during decompressive surgery for hemifacial spasm, 254
Hemorrhage
Treatment of intractable arterial hemorrhage during stereotactic brain biopsy with thrombin. Report of three patients, 301
Herpesvirus
Delivery of ultraviolet-inactivated ^{35}S-herpesvirus across an osmotically modified blood-brain barrier, 475
Hormone, *see* specific hormones
Hormone therapy
Treatment of unresectable meningiomas with the antiprogesterone agent mifepristone, 861
Hydrocephalus
Benign intrinsic tectal "tumors" in children, 867
Hydromyelic hydrocephalus. Correlation of hydromyelia with various stages of hydrocephalus in postshunt isolated compartments, 371
Intracranial pressure and cerebrospinal fluid outflow conductance in healthy subjects, 597
Shunt surgery for hydrocephalus in tuberculous meningitis: a long-term follow-up study, 64
Hydromyelia
Hydromyelic hydrocephalus. Correlation of hydromyelia with various stages of hydrocephalus in postshunt isolated compartments, 371
Hyperglycemia
The effect of glucose administration on carbohydrate metabolism after head injury, 43
Hyperthermia
Relationship between body and brain temperature in traumatically brain-injured rodents, 492
Hyperventilation
Effects of tromethamine and hyperventilation on brain injury in the cat, 87
Hypopituitarism
Clinical, radiographic, and pathological features of symptomatic Rathke's cleft cysts, 535
Hypothermia
Relationship between body and brain temperature in traumatically brain-injured rodents, 492
Ultraprofound hypothermia with complete blood substitution in a canine model, 781
Hypoxia
Intratumoral oxygen pressure in malignant brain tumor, 55
Immunochemistry
Microinfarction: osmotic BBB opening or microcrystals in infusate? Letters, 685
Multiple adenomas of the human pituitary. A retrospective autopsy study with clinical implications, 243
Immunosuppression
Tissue grafting and immunosuppression. Letters, 157
Infarction
Risk factors for cerebral infarction in good-grade patients after aneurysmal subarachnoid hemorrhage and surgery: a prospective study, 14
Infusion pump
Dopamine distribution and behavioral alterations resulting from dopamine infusion into the brain of the lesioned rat, 105
Instrumentation
A micromanipulator for precise control of a brain retractor. Technical note, 1009
A new clip applier. Technical note, 304
Insulin-like growth factor
Radioimmunoassay of insulin-like growth factors in cyst fluid of central nervous system tumors, 972
Interictal spikes
Magnetoencephalographic localization of interictal spike sources. Case report, 660
Intervertebral disc
Dorsal root ganglionectomy for failed back surgery syndrome: a 5-year follow-up study, 236
Unilateral facetectomy approach for lateral lumbar disc herniation, 754
Intracranial pressure
Intracranial pressure and cerebrospinal fluid outflow conductance in healthy subjects, 597
Intramedullary lesion
Solitary dorsal intramedullary schwannoma. Case report, 816
Intraoperative monitoring, *see also* Evoked potentials
Intraoperative monitoring of the facial nerve during decompressive surgery for hemifacial spasm, 254
Intraoperative ultrasonography: an important surgical adjunct for intramedullary tumors, 729
Isoflurane-induced attenuation of motor evoked potentials caused by electrical motor cortex stimulation during surgery, 897
Intratumoral oxygen pressure
Intratumoral oxygen pressure in malignant brain tumor, 55
Intraventricular hemorrhage
Lysis of intraventricular hematoma with tissue plasminogen activator. Case report, 803
Treatment of severe intraventricular hemorrhage by intraventricular infusion of urokinase, 81
Iopamidol
Iopamidol myelography: morbidity in patients with previous intolerance to iodine derivatives, 60
Ischemia
Ischemic neuronal damage after acute subdural hematoma in the rat: effects of pretreatment with a glutamate antagonist, 944
Longitudinal time course of reversible and irreversible components of chronic cerebrovasospasm of the rabbit basilar artery, 951
Platelet thromboxane release and delayed cerebral ischemia in patients with subarachnoid hemorrhage, 386
Isoflurane
Isoflurane-induced attenuation of motor evoked potentials caused by electrical motor cortex stimulation during surgery, 897
Juvenile pilocytic astrocytoma
Management of chiasmal and hypothalamic gliomas of infancy and childhood with chemotherapy, 701

Index

Lactic acid
The effect of glucose administration on carbohydrate metabolism after head injury, 43
Effects of tromethamine and hyperventilation on brain injury in the cat, 87
Lazaroid
Tumor-associated neurological dysfunction prevented by lazaroids in rats, 112
Leukotriene
Evidence against leukotrienes as mediators of brain edema, 773
Lipid peroxidation
Tumor-associated neurological dysfunction prevented by lazaroids in rats, 112
Lipoma
Optimal wound closure after tethered cord correction. Technical note, 673
Lipomatosis
Idiopathic and glucocorticoid-induced spinal epidural lipomatosis, 38
Lipomyelomeningocele
Surgical treatment of the retethered spinal cord after repair of lipomyelomeningocele, 709
Lobectomy
CT enhancement following lobectomy. Letters, 689
Lumbar puncture
Spinal cord AVM and risks of lumbar puncture. Letters, 855
Lymphocyte
Immunocytochemical evidence of lymphocytic derivation of neoplastic cells in malignant angioendotheliomatosis, 757
Lymphocytic adenohypophysitis presenting as infertility. Case report, 821
Lymphoma
Primary central nervous system T-cell lymphoma. Case report, 668

Magnetic field modulation
A frameless, armless navigational system for computer-assisted neurosurgery. Technical note, 845
Magnetic resonance imaging
Characterization of astrocytomas, meningiomas, and pituitary adenomas by phosphorus magnetic resonance spectroscopy, 447
Epidermoid cysts of the brain stem. Report of three cases, 123
Imaging of solitary lesions in AIDS. Letter, 1029
Increased MR signal intensity due to cervical myelopathy. Analysis of 29 surgical cases, 887
Radiation-induced optic neuropathy: a magnetic resonance imaging study, 426
Sequential magnetic resonance imaging following stereotactic radiofrequency ventralis lateralis thalamotomy, 579
Use of MR imaging-compatible Halifax interlaminar clamps for posterior cervical fusion, 185
Magnetoencephalography
Magnetoencephalographic localization of interictal spike sources. Case report, 660
Malar prominence
Orbital rim and malar advancement for unilateral coronal synostosis in the older pediatric age group, 219
Medicare
Morphine pump and Medicare. Letters, 529
Medulloblastoma
Improved survival with the use of adjuvant chemotherapy in the treatment of medulloblastoma, 433
Nitrogen mustard, vincristine, procarbazine, and prednisone as adjuvant chemotherapy in the treatment of medulloblastoma: a Pediatric Oncology Group study, 905
The risks of metastases from shunting in children with primary central nervous system tumors, 872

Meningioma
Characterization of astrocytomas, meningiomas, and pituitary adenomas by phosphorus magnetic resonance spectroscopy, 447
Estramustine binding protein in human brain-tumor tissue, 962
Pseudopsammomatous meningioma with elevated serum carcinoembryonic antigen: a true secretory meningioma. Case report, 129
The standardized assessment of argyrophilic nucleolar organizer regions in meningeal tumors, 590
Stereotactic radiosurgery of meningiomas, 552
Treatment of unresectable meningiomas with the antiprogesterone agent mifepristone. 861
Meningitis
Shunt surgery for hydrocephalus in tuberculous meningitis: a long-term follow-up study, 64
Meralgia paresthetica
Management of meralgia paresthetica, 76
Metastasis
In vivo incorporation of [9,10-^{3}H]-palmitate into a rat metastatic brain-tumor model, 643
Pediatric spinal epidural metastases, 70
The risks of metastases from shunting in children with primary central nervous system tumors, 872
Microvascular decompression
Hemifacial spasm caused by a spontaneous dissecting aneurysm of the vertebral artery. Case report, 650
Mifepristone
Treatment of unresectable meningiomas with the antiprogesterone agent mifepristone, 861
Morphine
Morphine pump and Medicare. Letters, 529
Mutism
Mutism after posterior fossa surgery in children: correction. Letter, 314
Myelography
Iopamidol myelography: morbidity in patients with previous intolerance to iodine derivatives, 60
Myelopathy
Central corpectomy for cervical spondylotic myelopathy: a consecutive series with long-term follow-up evaluation, 163
Increased MR signal intensity due to cervical myelopathy. Analysis of 29 surgical cases, 887

Nephritis
Shunt nephritis. Case report, 656
Nerve, *see* specific nerves
Nerve injury
Histological assessment of nerve lesions caused by epineurial electrode application in rat sciatic nerve, 636
Nerve root avulsion
Coaptation of the anterior rami of C-3 and C-4 to the upper trunk of the brachial plexus for cervical nerve root avulsion, 171
Neural implantation
Dopamine distribution and behavioral alterations resulting from dopamine infusion into the brain of the lesioned rat, 105
Fetal nondopaminergic neural implants in parkinsonian primates. Histochemical and behavioral studies, 97
Neurinoma, *see also* Acoustic neurinoma
Management of meralgia paresthetica, 76
Neurofibromatosis
Benign spinal nerve sheath tumors: their occurrence sporadically and in neurofibromatosis types 1 and 2, 248
Bilateral cerebellopontine angle tumors in neurofibromatosis type 2, 910
Neuron
Spontaneous neuronal hyperactivity in the medial and intra-

laminar thalamic nuclei of patients with deafferentation pain, 415
Neuropathy
Radiation-induced optic neuropathy: a magnetic resonance imaging study, 426
Neurosurgical education
Foundation for International Education in Neurological Surgery, Inc. Report of Activities, 1988–1990. Letter, 309
Neurosurgical history
Valsalva maneuver or Paré maneuver? Letter, 690
Nimodipine
Long-term effects of nimodipine on cerebral infarcts and outcome after aneurysmal subarachnoid hemorrhage and surgery, 8
Risk factors for cerebral infarction in good-grade patients after aneurysmal subarachnoid hemorrhage and surgery: a prospective study, 14
Nucleolar organizer region
Nucleolar organizer regions in various human brain tumors, 979
The standardized assessment of argyrophilic nucleolar organizer regions in meningeal tumors, 590
Nutrition
Altered gastric emptying in the head-injured patient: relationship to feeding intolerance, 738
The effect of glucose administration on carbohydrate metabolism after head injury, 43

Occult arteriovenous malformation
Angiographic occult vascular malformations. Letters, 527
Odontoid fracture
Vertical odontoid fracture. Case report, 665
Operative technique
The Dolenc technique for cavernous sinus exploration (cadaveric prosection). Technical note, 837
A frameless, armless navigational system for computer-assisted neurosurgery. Technical note, 845
Giant carotid-ophthalmic artery aneurysms: direct clipping utilizing the "trapping-evacuation" technique, 567
Intraoperative protection of cranial nerves and perforating arteries by silicone rubber sheets. Technical note, 677
A new surgical approach to subcortical lesions: balloon inflation and cortical gluing. Technical note, 1014
Ophthalmic artery
Abnormal origin of bilateral ophthalmic arteries. Case report, 287
Giant carotid-ophthalmic artery aneurysms: direct clipping utilizing the "trapping-evacuation" technique, 567
Optic nerve
Radiation-induced optic neuropathy: a magnetic resonance imaging study, 426
Orthostatic reflex
The fastigial pressor response. Case report, 147
Osteogenesis imperfecta
Basilar impression in osteogenesis imperfecta tarda. Case report, 136
Osteomyelitis
Pyogenic osteomyelitis of the spine in the elderly, 878
Oxyhemoglobin
Cytosolic calcium changes in cultured rat aortic smooth-muscle cells induced by oxyhemoglobin, 620

Pain
Somatosensory function following dorsal root entry zone lesions in patients with neurogenic pain or spasticity, 916
Spontaneous neuronal hyperactivity in the medial and intralaminar thalamic nuclei of patients with deafferentation pain, 415
Palmitic acid
In vivo incorporation of [9,10-^{3}H]-palmitate into a rat metastatic brain-tumor model, 643
Panhypopituitarism
Growth hormone deficiency following radiation therapy of primary brain tumors in children, 743
Paramedian reticular nucleus
The fastigial pressor response. Case report, 147
Parkinson's disease
Dopamine distribution and behavioral alterations resulting from dopamine infusion into the brain of the lesioned rat, 105
Fetal nondopaminergic neural implants in parkinsonian primates. Histochemical and behavioral studies, 97
Perforating artery
Intraoperative protection of cranial nerves and perforating arteries by silicone rubber sheets. Technical note, 677
Photodynamic therapy
Enhanced *in vitro* uptake and retention of ^{3}H-tetraphenylphosphonium by nervous system tumor cells, 116
Pineal tumor
Successful treatment of a pineal endodermal sinus tumor. Case report, 832
Pituitary adenoma
Characterization of astrocytomas, meningiomas, and pituitary adenomas by phosphorus magnetic resonance spectroscopy, 447
Pituitary tumor, *see* Adenoma
Platelet aggregation
Reduced platelet aggregability and thromboxane release after rebleeding in patients with subarachnoid hemorrhage, 21
Posterior fossa
Mutism after posterior fossa surgery in children: correction. Letter, 314
Primitive neuroectodermal tumor
Improved survival with the use of adjuvant chemotherapy in the treatment of medulloblastoma, 433
Prognosis
Subarachnoid hemorrhage of unknown etiology: early prognostic factors for long-term functional capacity, 601
Protein kinase C
Glioma growth and the protein kinase-C system. Letters, 685
Pseudopsammoma body
Pseudopsammomatous meningioma with elevated serum carcinoembryonic antigen: a true secretory meningioma. Case report, 129
Pterional approach
Pterional craniotomy. Letters, 526

Radiation necrosis
A histological and flow cytometric study of dog brain endothelial cell injuries in delayed radiation necrosis, 625
Radiation-induced optic neuropathy: a magnetic resonance imaging study, 426
Radiation therapy
Conservative surgery and radiation for childhood craniopharyngiomas. Letters, 1025
Postoperative radiotherapy in the management of spinal cord ependymomas, 720
Side effects of radiation therapy. Letters, 1026
Radiosurgery
Stereotactic radiosurgery of meningiomas, 552
Rathke's cleft cyst
Clinical, radiographic, and pathological features of symptomatic Rathke's cleft cysts, 535

Index

Retractor
A micromanipulator for precise control of a brain retractor. Technical note, 1009
Rheology
Cerebral blood flow patterns at major vessel bifurcations and aneurysms in rats, 258
Rheumatoid arthritis
Atlantoaxial stabilization in rheumatoid arthritis, 1
Rhinorrhea
Cerebrospinal fluid rhinorrhea following acoustic neurinoma surgery. Technical note, 152
Rhizotomy
Cerebral palsy and rhizotomy. A 3-year follow-up evaluation with gait analysis, 178
Functional outcomes following selective posterior rhizotomy in children with cerebral palsy, 380

Schwannoma
Benign spinal nerve sheath tumors: their occurrence sporadically and in neurofibromatosis types 1 and 2, 248
Solitary dorsal intramedullary schwannoma. Case report, 816
Sciatic nerve
Hemangiopericytoma of the sciatic nerve. Case report, 512
Histological assessment of nerve lesions caused by epineurial electrode application in rat sciatic nerve, 636
Seizure
Antibiotic effect on incidence of postcraniotomy seizures. Letters, 311
Developmental anterobasal temporal encephalocele and temporal lobe epilepsy, 933
Language function following anterior temporal lobectomy, 560
Magnetoencephalographic localization of interictal spike sources. Case report, 660
The morbidity of long-term seizure monitoring using subdural strip electrodes, 734
Seizure outcome from anterior and complete corpus callosotomy, 573
Shunt
Benign intrinsic tectal "tumors" in children, 867
Intracranial arachnoid cysts in children. A comparison of the effects of fenestration and shunting, 230
Percutaneous thecoperitoneal shunt for syringomyelia. Report of three cases, 827
The risks of metastases from shunting in children with primary central nervous system tumors, 872
Shunt surgery for hydrocephalus in tuberculous meningitis: a long-term follow-up study, 64
Transesophageal echocardiography: a simple method for monitoring the patency of ventriculoatrial shunts. Technical note, 1018
Shunt complication
Hydromyelic hydrocephalus. Correlation of hydromyelia with various stages of hydrocephalus in postshunt isolated compartments, 371
Shunt nephritis. Case report, 656
Skull-base tumor
An extensive transbasal approach to frontal skull-base tumors. Technical note, 1011
Smooth-muscle cell
Cytosolic calcium changes in cultured rat aortic smooth-muscle cells induced by oxyhemoglobin, 620
Spasticity
Functional outcomes following selective posterior rhizotomy in children with cerebral palsy, 380
Somatosensory function following dorsal root entry zone lesions in patients with neurogenic pain or spasticity, 916
Speech
Language function following anterior temporal lobectomy, 560
Spina bifida
Accessory arm — dysraphism or disparity? Case report, 297
Surgical treatment of the retethered spinal cord after repair of lipomyelomeningocele, 709
Spinal fusion
The interspinous method of posterior atlantoaxial arthrodesis, 190
Use of MR imaging-compatible Halifax interlaminar clamps for posterior cervical fusion, 185
Spinal injury
Vertical odontoid fracture. Case report, 665
Spinal lesion
Anterolateral transthoracic transvertebral resection of an intramedullary spinal arteriovenous malformation. Case report, 1004
Pediatric spinal epidural metastases, 70
Spondylosis
Central corpectomy for cervical spondylotic myelopathy: a consecutive series with long-term follow-up evaluation, 163
Stereotaxis
A frameless, armless navigational system for computer-assisted neurosurgery. Technical note, 845
Sequential magnetic resonance imaging following stereotactic radiofrequency ventralis lateralis thalamotomy, 579
Stereotactic radiosurgery of meningiomas, 552
Stereotactic surgery: open or closed? Letter, 855
Treatment of intractable arterial hemorrhage during stereotactic brain biopsy with thrombin. Report of three patients, 301
Subarachnoid hemorrhage
Effect of 21-aminosteroid U-74006F on lipid peroxidation in subarachnoid clot, 454
Effect of intrathecal fibrinolysis on cerebrospinal fluid absorption after experimental subarachnoid hemorrhage, 789
Fatal rupture of the intracranial carotid artery during transluminal angioplasty for vasospasm induced by subarachnoid hemorrhage. Case report, 985
Long-term effects of nimodipine on cerebral infarcts and outcome after aneurysmal subarachnoid hemorrhage and surgery, 8
Long-term outcome following anterior cerebral artery ligation for ruptured anterior communicating artery aneurysms, 51
Platelet thromboxane release and delayed cerebral ischemia in patients with subarachnoid hemorrhage, 386
Reduced platelet aggregability and thromboxane release after rebleeding in patients with subarachnoid hemorrhage, 21
Risk factors for cerebral infarction in good-grade patients after aneurysmal subarachnoid hemorrhage and surgery: a prospective study, 14
Subarachnoid hemorrhage from a dissecting aneurysm of the middle cerebral artery. Case report, 504
Subarachnoid hemorrhage of unknown etiology: early prognostic factors for long-term functional capacity, 601
Subcortical lesion
A new surgical approach to subcortical lesions: balloon inflation and cortical gluing. Technical note, 1014
Subdural hematoma
Acute subdural hematoma: morbidity, mortality, and operative timing, 212
Correlation of the extracellular glutamate concentration with extent of blood flow reduction after subdural hematoma in the rat, 794
Ischemic neuronal damage after acute subdural hematoma in the rat: effects of pretreatment with a glutamate antagonist, 944
Superior hypophyseal artery
Superior hypophyseal artery aneurysm. Report of two cases, 501
Suprascapular nerve
Suprascapular nerve entrapment. A series of 27 cases, 893
Surgical approach, *see also* Operative technique and specific approaches
Anterolateral transthoracic transvertebral resection of an intra-

medullary spinal arteriovenous malformation. Case report, 1004
Hearing loss from petrous-to-supraclinoid carotid bypass. Letters, 688
Intracranial carotid-to-carotid bypass. Letters, 856
Removal of the roof of the external auditory meatus in approaching the tentorial notch through a low temporal craniotomy. Technical note, 520
Venous infarction following the interhemispheric approach in patients with acute subarachnoid hemorrhage, 715
Synostosis, *see* Coronal synostosis
Syringomyelia
Percutaneous thecoperitoneal shunt for syringomyelia. Report of three cases, 827
Spontaneous decompression of syringomyelia: magnetic resonance imaging findings. Case report, 283

T cell
Primary central nervous system T-cell lymphoma. Case report, 668
Tectal tumor
Benign intrinsic tectal "tumors" in children, 867
Temporal lobe
Developmental anterobasal temporal encephalocele and temporal lobe epilepsy, 933
Language function following anterior temporal lobectomy, 560
Tension pneumocephalus
Tension pneumocephalus: treatment with controlled decompression via a closed water-seal drainage system. Case report, 139
Tentorium
Intradural chordoma of the tentorium cerebelli. Case report, 508
Removal of the roof of the external auditory meatus in approaching the tentorial notch through a low temporal craniotomy. Technical note, 520
Tethered spinal cord
Optimal wound closure after tethered cord correction. Technical note, 673
Surgical treatment of the retethered spinal cord after repair of lipomyelomeningocele, 709
Tethered cord syndrome from a choristoma of müllerian origin. Case report, 497
Thalamus
Sequential magnetic resonance imaging following stereotactic radiofrequency ventralis lateralis thalamotomy, 579
Spontaneous neuronal hyperactivity in the medial and intralaminar thalamic nuclei of patients with deafferentation pain, 415
Thrombin
Treatment of intractable arterial hemorrhage during stereotactic brain biopsy with thrombin. Report of three patients, 301
Thromboxane
Platelet thromboxane release and delayed cerebral ischemia in patients with subarachnoid hemorrhage, 386
Reduced platelet aggregability and thromboxane release after rebleeding in patients with subarachnoid hemorrhage, 21
Tic convulsif
Magnetic resonance imaging of vertebrobasilar ectasia in tic convulsif. Case report, 999
Timing of surgery
Acute subdural hematoma: morbidity, mortality, and operative timing, 212
Tissue graft
Tissue grafting and immunosuppression. Letters, 157
Tissue plasminogen activator
Biological significance of tissue plasminogen activator content in brain tumors, 480
Lysis of intraventricular hematoma with tissue plasminogen activator. Case report, 803
Tissue plasminogen activator thrombolysis of a middle cerebral artery embolus in a patient with an arteriovenous malformation. Case report, 808
Tourniquet
Air embolism: Bodenstab tourniquet. Letter, 528
Transbasal approach
An extensive transbasal approach to frontal skull-base tumors. Technical note, 1011
Transferrin receptor
Transferrin receptor on glioblastoma multiforme. Letter, 313
Transsphenoidal surgery
Forced subarachnoid air in transsphenoidal surgery. Letters, 314
Trapping
Giant carotid-ophthalmic artery aneurysms: direct clipping utilizing the "trapping-evacuation" technique, 567
Trigeminal neuralgia
Magnetic resonance imaging of vertebrobasilar ectasia in tic convulsif. Case report, 999
Tuberculous meningitis
Shunt surgery for hydrocephalus in tuberculous meningitis: a long-term follow-up study, 64
Tumor, *see* specific tumors
Tumor, brain, *see* Brain neoplasm
Tumor, ectopic
Postoperative ectopic craniopharyngioma. Case report, 653
Tumor, germ-cell
Intracranial germ-cell tumors in children, 545
Tumor, intramedullary
Intraoperative ultrasonography: an important surgical adjunct for intramedullary tumors, 729
Tumor marker
Enhanced *in vitro* uptake and retention of ^{3}H-tetraphenylphosphonium by nervous system tumor cells, 116
In vivo incorporation of [9,10-^{3}H]-palmitate into a rat metastatic brain-tumor model, 643
Tumor, nerve sheath
Benign spinal nerve sheath tumors: their occurrence sporadically and in neurofibromatosis types 1 and 2, 248
Tumor seeding
Postoperative ectopic craniopharyngioma. Case report, 653
Tumors, multiple
Multiple adenomas of the human pituitary. A retrospective autopsy study with clinical implications, 243
Turcot's syndrome
Long-time survival of a patient with glioblastoma and Turcot's syndrome. Case report, 813

U-74006F
Effect of 21-aminosteroid U-74006F on lipid peroxidation in subarachnoid clot, 454
Ultrasonography
Intraoperative ultrasonography: an important surgical adjunct for intramedullary tumors, 729
Urokinase
Treatment of severe intraventricular hemorrhage by intraventricular infusion of urokinase, 81

Valsalva maneuver
Valsalva maneuver or Paré maneuver? Letter, 690
Vascular malformation, *see* Arteriovenous malformation
Vasoactivity
Lack of neural control and reactivity to vasoactive agents in

malignant glioma arteries, 633
Vasospasm
Effect of 21-aminosteroid U-74006F on lipid peroxidation in subarachnoid clot, 454
Fatal rupture of the intracranial carotid artery during transluminal angioplasty for vasospasm induced by subarachnoid hemorrhage. Case report, 985
Longitudinal time course of reversible and irreversible components of chronic cerebrovasospasm of the rabbit basilar artery, 951
Prevention of cerebral vasospasm by actinomycin D, 940
Vein graft
Vein bypass grafts and basofrontal mass lesions. Letters, 156
Venous infarction
Venous infarction following the interhemispheric approach in patients with acute subarachnoid hemorrhage, 715
Ventriculoatrial shunt
Transesophageal echocardiography: a simple method for monitoring the patency of ventriculoatrial shunts. Technical note, 1018
Ventriculoscope
Endoscopic ventricular fenestration using a "saline torch," 224

Zygoma
Orbital rim and malar advancement for unilateral coronal synostosis in the older pediatric age group, 219
